"Audrey is very knowledgeable when it comes to personal branding and social media. I've had the opportunity to collaborate with her on projects and have seen her speak at a few different events. I'm always amazed by her skill of being able to provide valuable content to an audience that encourages them to engage by asking questions throughout her presentation".

Daleele Alison | Rooks Digital Marketing

"Audrey's unique combination of background, experience and skills allows her to easily connect with people, making them laugh while they learn. When she taught the startup founders at our Meetup, she clearly communicated what they needed to understand about the importance of and approach to social media marketing and branding for their new companies—and themselves. She is very knowledgeable about the topics and has the presence and presentation skills to communicate them very effectively".
